D. C. Code title  
1 app.

TITLE I—ADJUSTMENT OF WATER RATES

SEC. 101. The Commissioners are authorized, in their discretion, to fix from time to time, the rates charged by the District for water and water services furnished by the District water supply system. Such rates so fixed, whether involving one or more changes in rate, or one or more changes in the basic quantity of water to be supplied at a given rate, or the combined effect of both such changes, shall not, in any event, result in increasing by more than 33 $\frac{1}{3}$  per centum the rates in effect on the day preceding the effective date of this section. In computing the charge for the consumption of water in excess of the minimum amount allowed for metered service, if such charge is for a period beginning prior to so fixing such rates and ending thereafter, the charge for such excess consumption shall be prorated on a monthly basis, in accordance with the rates prevailing in the respective periods. Nothing in this title shall be construed to modify the provisions of the Act approved April 14, 1932 (47 Stat. 79, ch. 100; sec. 43-1530, D. C. Code) relating to the delivery of water from the District water supply system to the Washington Suburban Sanitary Commission.

Fixed charges.

SEC. 102. An additional charge of 10 per centum shall be added to any water charge remaining unpaid after the expiration of thirty days from the date of rendition of a bill for such charge.

Charge for un-  
paid bills.

**Collection.**

SEC. 103. The Commissioners are authorized to provide for the collection of water charges, in advance or otherwise, from the owner or occupant of any building, establishment, or other place furnished water or water service by the District, and to shut off the water supply to any such building, establishment, or other place upon failure of the owner or occupant thereof to pay such water charges within thirty days from the date of rendition of the bill therefor. Such authority to shut off the water supply may be exercised by the Commissioners regardless of any change in ownership or occupancy of such building, establishment, or other place. When the water supply to any such building, establishment, or other place has been shut off for failure to pay such water charges, whether the water supply to such building, establishment, or other place was shut off before or after the enactment of this title, the Commissioners shall not again supply such building, establishment, or other place with water until all arrears of water charges, together with penalties and the costs actually incurred in shutting off and restoring the water supply, are paid.

**Continuing lien.**

SEC. 104. The District shall have a continuing lien for water charges upon any land and the improvements thereon to which water or water service is or has been furnished. Such lien shall have priority over all other liens except liens for District taxes. If any water charges shall remain unpaid after the expiration of two years from the date of rendition of the bill for such charges, or two years from the effective date of this title, whichever is later, the property which has been furnished such water or water service may be sold for such unpaid water charges, together with penalties thereon and costs, at the next ensuing tax sale in the same manner and under the same conditions as property sold for delinquent general taxes, if such water charges, together with penalties thereon and costs, shall not have been paid in full prior to said sale. So much of the proceeds of said sale as represents said unpaid water charges shall be credited to the water fund of the District.

**Applicability.**

SEC. 105. The remedies set forth in sections 102, 103, and 104 of this title are hereby declared to be cumulative and not exclusive.

**Services to Government.**

SEC. 106. (a) All water and water services furnished from the District water supply system through any connection thereto for direct use by the Government of the United States or any department, independent establishment, or agency thereof, situated in the District, except water and water services furnished to the United States for the maintenance, operation, and extension of the water system, shall be paid for at the rates for the furnishing and readiness to furnish water applicable to other water consumers in the District. All water and water services furnished from the District water supply system through any connection thereto for direct use by the Government of the United States or any department, independent establishment, or agency thereof, situated outside the District in the States of Maryland or Virginia, except water and water services furnished to the United States for the maintenance, operation, and extension of the water system, shall be paid for at rates comparable to those which may be in effect and charged to State, municipal, or county agencies or other political authorities or jurisdictions within the respective States wherein said Federal facilities may be situated for similar water service from the District water supply system: *Provided*, That conditions as to water pressure, quantity, rates of demand, and points of connection available or permissible at any time for service outside the District, if any, shall be fixed by the Commissioners so as to fully protect the prior interests of water consumers within the District: *Provided further*, That as a condition of service, at each point of Federal connection to the water system of the District for service outside the District there shall be installed and maintained at the expense of the

department, independent establishment, or agency of the United States which is to use water therefrom a suitable meter or meters and incidental vaults, valves, piping and recording devices, and such other equipment as the Commissioners in their discretion deem necessary to control and record the use of water through each such connection. Payment shall be made as provided in subsection (b) of this section. Whenever any payment authorized by this section is made, such payment shall be in lieu of so much of the annual payment authorized by article VI of the Act approved July 16, 1947 (61 Stat. 328, 361), as pertains to the Water Fund of the District. The provisions of sections 102, 103, and 104 of this title, relating, respectively, to enforcement of payment for water charges by penalty charge for late payment, by shutting off of the water supply for nonpayment, and the imposition of lien and sale of property, shall not apply in any case where water or water service is furnished to a building, establishment, or other place owned by the Government of the United States and occupied by a department, independent establishment, or agency thereof.

(b) For the purpose of effectuating the provisions of subsection (a) of this section, there shall be included annually in the budget estimates of the Commissioners the value, as determined by the Commissioners, of the water and water services furnished to the United States during the most recent preceding fiscal year for which such value can be determined, based on the water rates prevailing during the period of consumption, and there shall be appropriated annually for the District to the credit of the said Water Fund, out of any money in the Treasury not otherwise appropriated (to be advanced on July 1 of each fiscal year beginning July 1, 1954), a sum corresponding to the value of the water and water services furnished the United States.

SEC. 107. The first proviso of section 2 of the Act entitled "An Act making appropriations to provide for the expenses of the government of the District of Columbia for the fiscal year ending June thirtieth, eighteen hundred and eighty-three, and for other purposes", approved July 1, 1882 (22 Stat. 144; sec. 43-1504, D. C. Code, 1951 edition), is amended by striking the word "annually" and inserting in lieu thereof the following: "at least once every twelve months, or whenever practicable in the judgment of the Commissioners, at least once every six months".

SEC. 108. (a) Subsection (a) of section 2 of the Act entitled "An Act authorizing loans from the United States Treasury for the expansion of the District of Columbia water system", approved June 2, 1950 (64 Stat. 195; sec. 43-1540, D. C. Code, 1951 edition), is amended by striking the figures "23,000,000", and inserting in lieu thereof the figures "35,000,000".

(b) Subsections (c) and (d) of section 2 of such Act approved June 2, 1950, are amended to read as follows:

"(c) Any loan advanced pursuant to this section shall be repaid to the Secretary of the Treasury in substantially equal annual payments, including principal and interest, within a period of thirty years beginning on July 1 of the second fiscal year following the date on which each such advance is credited to the Water Fund: *Provided*, That any such loan advanced prior to the effective date of this amendatory section shall, for the purpose of determining the time when repayment thereof shall begin, be deemed to have been credited to the Water Fund on such effective date, and interest accrued on any such loan advanced prior to the effective date of this amendatory section shall be paid at such time and in such manner as the Secretary of the Treasury shall determine: *Provided further*, That the Commissioners may, in their discretion, make repayments in larger amounts at any

D. C. Sanitary Sewage Works Fund.

SEC. 202. There is hereby created in the Treasury of the United States a special fund which shall be known as the D. C. Sanitary Sewage Works Fund, and which shall be composed of such sums as shall be deposited to the credit of such fund, including, but not limited to, sums received by the Commissioners under the provisions of the Act entitled “An Act authorizing the laying of water mains and service sewers in the District of Columbia, the levying of assessments therefor, and for other purposes”, approved April 22, 1904 (33 Stat. 244; secs. 43-1510 to 43-1517, D. C. Code, 1951 edition), on account of assessments levied for the construction of sewers and including any payment made to the District by any governmental agency of the States of Maryland or Virginia on account of any sewer service furnished any such agency by the District.

**Use of Fund.**

SEC. 203. Subject to appropriations, the D. C. Sanitary Sewage Works Fund shall be available for use by or under the direction and control of the Commissioners for—

(a) the construction, operation, maintenance, expansion, relocation, replacement, renovation, and repair of the sanitary sewage works of the District, including all expenses;

(b) payment of a portion of such administrative expenses as may not be wholly allocated to the sanitary sewage works or to any other sewage works of the District, but which expenses are incurred in connection with the operation of the sanitary sewage works and either or both the stormwater sewer system and the combined sewer system. The portion of such expenses to be paid from the D. C. Sanitary Sewage Works Fund shall be fixed from time to time by the Commissioners at such a percentage of the total of such expenses for the said sewer systems as the Commissioners, in their discretion, may determine;

(c) payment of such portion of all expenses for the construction, operation, maintenance, expansion, relocation, replacement, renovation, and repair of the combined sewer system of the District as the Commissioners, in their discretion, determine to be attributable to the sanitary sewage function of such combined sewer system;

(d) payment of the District's contribution to the expenses of the Interstate Commission on the Potomac River Basin;

(e) payments by the District to agencies in the State of Maryland providing services to the District for conveying, treating, or disposing of sanitary sewage: *Provided*, That the said fund shall not be available to pay the cost of providing sewage service to institutions of the District located in the State of Maryland;

(f) payments to the General Fund and other funds of the District for such expenses or estimated expenses as are or may be incurred in the administration of this title;

(g) payment to the United States Treasury of the interest, in accordance with the provisions of this title, on loans to the District for such Sanitary Sewage Works Fund;

(h) repayment to the United States Treasury of the principal amount of each loan made to the District in accordance with the provisions of this title, and of any advancements made to the District in accordance with the provisions of section 204 of this title; and

(i) refund of part or all of any sanitary sewer service charges erroneously paid: *Provided*, That application for refund shall be made within two years after such erroneous payment.

SEC. 204. The Secretary of the Treasury, notwithstanding the provisions of the District of Columbia Appropriation Act, approved June 29, 1922 (42 Stat. 668), is authorized and directed to advance, on the requisition of the Commissioners, made in the manner now prescribed by law, out of any money in the Treasury of the United States not otherwise appropriated, such sums as may be necessary, from time to time, to meet the expenses of the District in connection with the construction, operation, maintenance, expansion, relocation, replacement, renovation, and repair of the sanitary sewage works of the District, as authorized by Congress, and such amounts so advanced shall be reimbursed by the said Commissioners to the Treasury out of the moneys deposited to the credit of the D. C. Sanitary Sewage Works Fund.

SEC. 205. Notwithstanding the provisions of this title, any current appropriation available to the District for the construction, operation, maintenance, expansion, relocation, replacement, renovation, and repair of the sanitary sewage works of the District shall remain available for the purposes for which appropriated.

Construction,  
maintenance, etc.,  
expenses.

Current appro-  
priation.

Service charges.

SEC. 206. The Commissioners are authorized to establish charges for the provision of sanitary sewer service, such charges to be collected in the same manner and at the same time as water charges are collected, and to be paid into the D. C. Sanitary Sewage Works Fund.

Basis for charges.

SEC. 207. The sanitary sewer service charges established under the authority of this title shall be based on the water consumption of, and water service to, the properties served, and be determined by one of the following methods:

(a) Where water is supplied from the District water supply system at meter rates, the Commissioners shall establish the sanitary sewer service charge as a percentage of the water charge applicable in the District, but such percentage shall not exceed 60 per centum of the water charge.

(b) Where water is supplied from the District water supply system, which water is not measured by meter, but is supplied at special business and miscellaneous rates, the Commissioners shall establish the sanitary sewer service charge at a percentage of such special business and miscellaneous rates, but such percentage shall not exceed 60 per centum of such rates.

(c) For each property using water, all or part of which is from a source or sources other than the District water supply system, the Commissioners shall establish a sanitary sewer service charge separate from and in addition to any sanitary sewer service charge levied under paragraph (a) or (b) of this section. Such separate or additional sanitary sewer service charge shall be measured by the quantity of water from the source or sources other than the District water supply system discharged into the District sanitary sewer system from said property. The owner or occupant of each such property shall install and maintain, without cost to the District, a meter or meters to measure the quantity of water received from other than the water supply system of the District, and the sanitary sewer service charge based upon water received from other than the water supply system of the District shall be the same in amount as would be paid by the owner of a metered property receiving the same quantity of water from the water supply system of the District. No meter shall be installed or be used for such purpose without the approval of the Commissioners. In the event the owner or occupant of property fails or refuses to furnish and properly maintain such meter or meters as are prescribed herein in the manner required by the Commissioners, then the supply of water from the District water supply system to the property or premises may be suspended by the Commissioners and the said supply shall not be restored until the metering of such supplementary water source has been accomplished by the owner or occupant to the satisfaction of the Commissioners, and any costs devolving upon the District as a result of the suspension of service from the District water supply system shall be paid to the District prior to the restoration of water service from the District water supply system.

(d) Wherever a property upon which a sanitary sewer service charge is imposed uses water from the water supply system of the District for an industrial or commercial purpose in such manner that the water so used is not discharged into the sanitary sewage works of the District, the quantity of water so used and not discharged into the sanitary sewage works of the District may be excluded in determining the sanitary sewer service charge on such property, if such exclusion is previously requested in writing by the owner or occupant thereof. Upon such request, the quantity of water so used and not discharged into the sanitary sewage works of the District shall be measured by a device or devices approved by the Commissioners, installed and maintained without cost to the District, and the sanitary

sewer service charge to be imposed on such property shall be not more than 60 per centum of the water charge which would have been charged such property if the amount of water so used and not discharged into the sanitary sewage works of the District had not been included in the amount of water used by such property: *Provided*, That all water from the water supply system of the District used by such property shall be paid for at established rates, whether or not such water is discharged into the sanitary sewage works of the District. Where, in the opinion of the Commissioners, it is not practicable to install a measuring device to determine continuously the quantity of water used for such industrial or commercial purposes and not discharged into the sanitary sewage works of the District, the Commissioners shall determine periodically, in such manner and by such methods as the Commissioners may prescribe, the quantity of water from the water supply system of the District discharged into the sanitary sewage works of the District, and the sanitary sewer service charge shall be based on such estimated quantity of water at the percentage authorized by this paragraph. Any dispute as to such estimated amount shall be decided by the Commissioners and such decision shall be final; and in the event the owner or occupant fails to furnish and maintain such measuring devices or to facilitate the periodic determinations by the Commissioners as prescribed herein, then the privilege of excluding some portion of the water used from the District water supply system from the charges for sanitary sewer service shall be forfeited and the charges for sanitary sewer service shall be based on the full amount of the water used from the District water supply system.

SEC. 208. (a) The owner or occupant of each building, establishment, or other place in the District connected with any District sewer conducting sanitary sewage shall pay the sewer service charge authorized by this title.

(b) If the sanitary sewer service charge imposed by this title is based on a water charge any part of which is for a period beginning prior to the imposition of the sanitary sewer service charge and ending thereafter, the sanitary sewer service charge shall be prorated, on a monthly basis, on so much of such water charge as shall have accrued subsequent to the effective date of this title.

SEC. 209. All meters or other measuring devices installed or required to be used under the provisions of this title shall be under the control of the Commissioners, who shall promulgate all regulations necessary in their judgment to effectuate the purposes of this title. The owner or occupant of the property upon which any such measuring device is installed shall be responsible for its maintenance and safekeeping, and all repairs thereto shall be made at the owner's cost, whether such repairs are made necessary by ordinary wear and tear or other causes. Bills for such repairs, if made by the District, shall be due and payable when rendered, and the Commissioners are authorized to provide for stopping the supply of water to any building or establishment upon the failure to pay such charge for meter repairs.

SEC. 210. The Commissioners are hereby authorized, in order to encourage the prompt payment of the sanitary sewer service charge imposed by this title, to impose an additional charge of 10 per centum for any sanitary sewer service charge remaining unpaid for more than thirty days, to shut off the water of premises for which such charge is not paid within thirty days, and to have and enforce a continuing lien for such charge upon the land and any improvements thereon furnished such sanitary sewer service, in the same manner and to the same extent as if sections 102, 103, 104, and 105 of title I of this Act were set forth in this title, and such sections shall be deemed to be

C. Sanitary Sewage Works Fund.

Churches and  
institutions.

SEC. 211. The sanitary sewer service charges applicable to such churches and institutions as may under existing law be furnished water without charge by the Commissioners shall be predicated only on the quantity of water used in excess of the amount fixed by the Commissioners in each case as to which no water charge is made.

ernment.

SEC. 212. (a) The sanitary sewer service charges prescribed herein shall be applicable to all sanitary sewer services furnished by the sanitary sewage works of the District through any connection thereto for direct use by the Government of the United States or any department, independent establishment, or agency thereof, and such charges shall be predicated on the value of water and water services received by such facilities of the Government of the United States or any department, independent establishment, or agency thereof from the District water supply system. Payment of the said sanitary sewer service charge shall be made as provided in subsection (b) of this section: *Provided*, That the aggregate amount of such sanitary sewer service charge for each fiscal year shall be determined in the manner prescribed in section 207 hereof: *Provided further*, That the obligation to pay for sanitary sewer services received by the Government of the United States or any department, independent establishment, or agency thereof shall be with respect to such service furnished on and after July 1, 1954.

Budget esti-  
mates.

(b) For the purpose of effectuating the provisions of subsection (a) of this section there shall be included annually in the budget estimates of the Commissioners beginning with the estimates for the fiscal year ending June 30, 1955, the value as determined by the Commissioners of the sanitary sewer service furnished to the United States or to any department, independent establishment, or agency thereof during the most recent preceding fiscal year for which such value can be determined based on the rates for such charges prevailing during the period of such service, and there shall be appropriated annually for the D. C. Sanitary Sewage Works Fund out of any money in the Treasury not otherwise appropriated (to be advanced on July 1 of each fiscal year beginning July 1, 1954) a sum corresponding to the said value of charges for sanitary sewer service furnished the United States.

Construction,  
etc.  
Loans.

SEC. 213. The Commissioners are hereby authorized to accept loans for the District from the United States Treasury to finance the construction, expansion, relocation, replacement, or renovation of (1) the sanitary sewer system of the District or (2) the combined sewer system of the District; and the Secretary of the Treasury is authorized to advance such sums as may be appropriated for such purposes.

Limitation.

SEC. 214. The total principal amount of loans made in connection with the construction, expansion, relocation, replacement, or renovation of the sanitary and combined sewer systems of the District shall not exceed \$5,000,000. Such loans shall be in addition to any other loans heretofore or hereafter made to the Commissioners for any other purpose, and when advanced shall be deposited in full in the Treasury of the United States to the credit of the D. C. Sanitary Sewage Works Fund.

SEC. 215. Nothing herein contained shall prohibit the use of funds deposited to the credit of the D. C. Sanitary Sewage Works Fund from being used for the construction, expansion, relocation, replacement, or renovation of any sewer in the combined sewer system of the District, but the Commissioners, prior to authorizing the use of moneys from such fund for such work, shall determine the percentage of the cost to be borne by the D. C. Sanitary Sewage Works Fund and the percentage to be borne by the General Fund.

SEC. 216. The loans authorized by this title shall be advanced to the Commissioners on their requisitions therefor, shall be available to the Commissioners for the construction, expansion, relocation, replacement, or renovation of all parts of the sanitary sewage works of the District, and shall be available until expended.

SEC. 217. Any loan advanced under this title shall be repaid to the Secretary of the Treasury in substantially equal annual payments, including principal and interest, within a period of thirty years beginning on July 1 of the second fiscal year following the date on which each such advance is credited to the D. C. Sanitary Sewage Works Fund: *Provided*, That the Commissioners may, in their discretion, make repayments in larger amounts at any time during the life of any such loan. Interest on such loans shall begin to accrue as of the dates the respective advancements are credited to the D. C. Sanitary Sewage Works Fund.

SEC. 218. Loans advanced pursuant to this title during any six-month period (beginning with the six-month period ending December 31, 1954) shall be at a rate of interest determined by the Secretary of the Treasury as of the beginning of such period, which, in his judgment, would reflect the cost of money to the Treasury for borrowings at a maturity approximately equal to one-half of the period of time the loan is outstanding.

SEC. 219. The provisions of sections 206 to 211, inclusive, of this title shall become effective on the first day of the third month following the enactment of this Act.
